

Financial Tear Sheet

Dimension Therapeutics, Inc. is a rare disease company focused on discovering and developing new therapeutic products for people living with devastating rare diseases associated with the liver and based on the most advanced adeno-associated virus (AAV) delivery technology. The company is advancing multiple programs toward clinical development, including: programs addressing unmet needs for patients suffering from GSDIa, phenylketonuria (PKU), Wilson disease, and citrullinemia; a collaboration with Bayer HealthCare in hemophilia A, and a wholly owned program in OTC deficiency, which is in a Phase 1/2 clinical trial. Dimension has preferred access to multiple AAV vectors from REGENXBIO. The Dimension team and senior advisors include biotech industry veterans and renowned thought leaders in gene therapy and rare diseases.
